COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

The Examiner's statement of reasons for the indication of allowable subject matter included on page 3 of the Office Action mailed April 9, 2004, characterizes the invention in terms of "the operating element and braking plate can adsorb each other by a magnetic force." Applicant respectfully asserts, however, that none of Claims 6-8 and 10-14 recite "the operating element and braking plate can adsorb each other by a magnetic force." Therefore, the statement mischaracterizes the invention in terms inconsistent with the actual claim language.

Application No. 10/691,693  
Reply to Notice of Allowance of August 9, 2004

Accordingly, Applicants respectfully assert that the Examiner's statement is  
understood not to apply to Claims 6-8 and 10-14.
